YOUR WEDDING ARCHITECT

Lexi Combs

667 am absolutely thrilled you are here.

I planned my own wedding - Whoops.

I now have 8 years experience in the industry because I made it my mission to save you from my only mistake.

While it was matchless, I needed someone like me to take on the joys of logistics so I could be present.

I am organized, professional, communicative, and exactly what you need/what I *needed*, to pull off a perfect day. The only thing you will want to change is the length of the day itself.

My father, a Mexican-American patriarch and entrepreneurial inspiration, ended his toast at my own celebration with

"Let's Get Fun."

I've adopted his finale as my own because, well...LET'S!
